Access, Assessment and Referral Services

Michigan Department of Community Health
Mental Health and Substance Abuse Services

2003

Michigan Department
of Community Health
Mental Health and
Substance Abuse Services

**Access, Assessment and
Referral (AAR) Services**

Goal of AAR Services

Goal of AAR Services:

To improve access to the substance abuse system, to provide initial objective assessments, and to arrange for client placement in appropriate services.

AAR Services:

Each region in Michigan has AAR services available. AAR agencies promote these services:

- *Provide a central point of entry to substance abuse treatment services*
- *Determine financial eligibility*
- *Provide an initial assessment for alcohol, tobacco, and other drugs*
- *Refer to substance abuse treatment*
- *Refer to other support services*
- *Provide case management services*

AAR services are available to all individuals in a community. Individuals in need of state-funded residential services or intensive outpatient services must be assessed by an AAR agency before entering these programs.

Preference for admission to substance abuse treatment is given to:

- *Pregnant injecting drug users*
- *Pregnant substance abusers*
- *Injecting drug users*
- *Parents whose children have been, or are in danger of being, removed from the home under Michigan child protection laws because of the parent's substance abuse.*
- *All other individuals*

For more information, call the AAR agency in your area.
